

CEIAG; Measuring the Impact of Good Career Guidance.

Research shows that good career guidance has a long-term positive impact on students and pupils. This impact pathway is set out below.

Benefits can also be seen in the shorter term when pupils are still at school. These benefits include better motivation of pupils once they have clear goals for future study and careers, leading to: – higher self-esteem – higher attainment – reduced drop-out rates.

*NEET – Not in Education, Employment or Training

At The Derby High School, we continue to work strategically and with ambition to ensure that an innovative, non-biased and aspirational careers programme is embedded across our entire student body.

We are continuously evaluating the effectiveness of our evolving careers programme, quality assuring and measuring its impact through a collecting a variety of qualitative and quantitative data:

- Internal learning walks and curriculum reviews
- Internal CEIAG meetings
- External Compass evaluations with the Careers and Enterprise Company (against the Gatsby Benchmarks)
- Parent / carer and pupil evaluations of trips and events
- Parent /carer and pupil evaluations of the learning offer
- Employer / Training provider / Guest's feedback on events
- Employer feedback on pupils' performance
- Post-16 provider feedback on applications
- Report into the Termly governor's report and committee meetings
- C&S Student Survey – what we will do with this data
- Career related student drop in sessions etc

- Feedback survey links on website. - we regularly conduct pupil, parent and staff voice surveys to evaluate the impact of the careers programme and enable us to continually improve our careers provision – what surveys etc?
